Flexible Engagement Models to Fit Your Needs

✓ **Discovery:**
Sessions are held with all stakeholders to determine requirements, no actual solution building or coding.

✓ **Fixed Price:**
Used when requirements are well defined, project duration is well known and finite. Any changes are handled through a formal Change Request process.
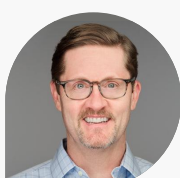

✓ **Time & Material:**
Used when exact requirements are still being determined, but direction is clear enough to begin building the solution. Project duration is fluid and can be extended month to month.

✓ **FTE Basis:**
A fully functional MOCG team at your disposal for the long term (ex. 6, 12, 24 months). The team structure, roles, and therefore costs may change over time depending upon the project(s) and role(s).
